

LEED – ASHRAE BASICS

Speaker: Dr. Sam C. M. Hui and Ms. Lili Pan

Programme Highlight:

ASHRAE Standards are used in numerous credits throughout the LEED Rating System. However, they are not gone into detail in the LEED Reference guide, and many LEED APs' outside of the engineering industry don't understand the full parameters of these Standards. A review of the relevant ASHRAE Standards used throughout the LEED Rating System would benefit both ASHRAE members considering their LEED AP credentialing and current LEED AP's. Included LEED NC, LEED CS, LEED CI and LEED EB projects sharing.
