

Title: **Technical Seminar on Safety and Proper Handling of Refrigerants for HVAC Application**

Date/Time: 23 April 2013, 6:30 pm – 9:30 pm

Venue: Room 751, VTC Tower, 27 Wood Road, Wanchai, Hong Kong

Program Highlight

It is noted that there is a growing concern in the HVAC industry on the safety issues of the refrigerants due to recent accidents. This program is going to give you a comprehensive view on the safety issues and proper handling procedures for refrigerants commonly used in the HVAC industry.

The physical characteristics of refrigerants, the operating procedures in servicing an air-conditioning equipment and the safety at workplace will be discussed.

Relevant safety regulations and applicable code of practices for refrigerants including the recent new hydrocarbon refrigerants will also be reviewed.

Speaker

Ir Victor Wong currently holds the position as Senior Manager of Trane Service Hong Kong. Mr. Wong has established a career in HVAC industry for over 20 years. His primary corporate responsibilities include Energy Project Management, Air Conditioning System Application and Training.

He is corporate member of HKIE, CIBSE, IMechE, and with Accredited Green Building Qualifications of BEAM Pro and LEED AP.
