

# NEW

## Inverter *ECO-i* Series

### R410A

# SANYO

## The top efficiency in the EHP field

# COP 3.63\*

\* Averaged COP of cooling and heating for domestic 6HP outdoor unit

## High efficiency and large capacity multi (6~48HP) Newly designed!

- Excellent energy saving
- Maximum 48HP outdoor unit capacity
- Minimum harmonics by combining "DC Inverter" and "Constant Speed" compressors
- Reduction of the piping cost and installation cost by smaller piping size
- Reduction of the refrigerant volume
- Maximum 40 indoor units can be connected
- Low operating sound design for outdoor units
- Maximum 150m actual piping
- Long-life unit with automatic operating cycling
- An emergency backup function is provided
